## How Wheeling Systems can improve your winning chances in Toto

It is really amazing that such powerful systems can be so simple and easy to use. There is no faster, easier, yet effective way to get immediate odds improvement in Lotto. You won't believe how simple it is to wheel your Lotto numbers until you try it. This is the way it works. Let's assume, for example, that you have decided to use Lotto System 401 for wheeling eight numbers.

Before using this system, first choose eight different Lotto numbers. After you have chosen the eight Lotto numbers you want to play, write them in the boxes under the letters A through H, under "Your 8 Numbers to Wheel." Your numbers can be entered in any order, or from low to high.

In the four games below, write the number you have placed under box A in all the boxes that have little A's in them. Then do the same with the numbers you have written under all the other letters.

#### The 4 Games to Play

1. 

A	B	C	E	G	H
A	B	D	F	G	H

3. 

A	C	D	E	F	H
B	C	D	E	F	G

For this example, let's assume that you have chosen to play the following group of eight Lotto numbers: 3, 8, 14, 15, 21, 28, 34, 39.

Having chosen your eight Lotto numbers, you can place them in any order, or from low to high under the eight letters, A-B-C-D-E-F-G-H in the boxes below “Your 8 Numbers to Wheel,” as I have done with the numbers chosen for this example. Those letters tell you which of your chosen Lotto numbers should be placed in which lettered box to make the right combinations.

Under “The 4 Games to Play,” notice there is a tiny letter in the upper left hand corner of each box. As in the following, simply take the Lotto number you have placed under the letter “A” and write that number in each box in this system where you see an A.

In our example, we have designated Lotto number 3 as A, if you were using the Lotto numbers in this example, you would place a 3 in each box that has a little A in it. Then do the same with the Lotto number you have placed under the letter B, filling in all the little B boxes with that number, which in this example is an 8.

Continue with the rest of the numbers until you have filled in every box in the system. When you have finished, your eight number picks will be perfectly wheeled into the four boards (see below). You are ready to write your bet slips so you can buy your Toto tickets. That is all there is to it. It is that easy!

1.	3	8	14	21	34	39	3.	3	14	15	21	28	39
2.	3	8	15	28	34	39	4.	8	14	15	21	28	39

You only need to buy four Ordinary-6 ticket for only \$2. If you were to buy System-8, it will cost you \$14.

**Under this Wheel system, if you get the six winning numbers among the eight numbers, you will be guarantee a win at least a five-number correct from one of the above boards.**

Watch for the next issue, we will explain another Gail Howard’s popular wheeling system, the BALANCED WHEELING SYSTEMS.
