Dear Valued Customers,

For more than a year I have not strike 4-D because I was away in New Zealand and later in China on Feng Shui assignments and discoveries.

Everytime I did Feng Shui for my clients, my feed-back was that they have a good feeling and some told me they had pleasant dreams at night. Most of them have positive effects.

Those who have wind-fall luck in their Bazi usually strike 4-D within 3 months, for some even immediately.

However those who have no windfall luck in their Bazi but have direct resouce luck will see the improvement of their business or progress in their career. Even those who seem unlucky that year can see an improvement and a change of Luck.

Last week I did a little experiment on myself. After analysing and thinking deeply, I create a very *Auspicious Picture* and place it in my Luck Corner on Friday 5-3-2010. That night I had a dream, an image of Cai Shen Yeh appear before me and ask me what do I want. I casually said I want to strike 4-D and I wake up without knowing what numbers to buy.

The next day during my Feng Shui auditing, I kept on coming across this number 1661, so I just bought a few dollars on this number and to my pleasant surprise this numbers open 3rd prize on 6-3-2010. To make it even better, on Sunday 7-3-2010 I strike two direct starters, 5884 my client's car numbers and 8777 another numbers that appear frequently to me that day.

My Auspicious Picture is not for sale.

However If you wish to change your Luck, just give me your Bazi and I will create a personal *Auspicious Picture* for you, but you must attend my Luck Transformation workshop to understand how it work.

If you wish to attend, I will be holding a Good Luck Transformation work-shop on:
